DETAILED ACTION

Response to Amendment

1. Applicants' amendments and arguments, see amendment, filed on 1/24/2005, with respect to Claims 1-3 have been fully considered and are persuasive. The 35U.S.C.103/112 rejections have been withdrawn. The applicant has canceled claim 2. None of the previously cited reference teaches the Claims 1 and 3.

Allowable Subject Matter

2. Claims 1 and 3 are allowed.

Examiner's Statement of Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:
The prior art along or in combination fails to teach or make obvious the limitations that specifically comprises:

"changing said adjustable clock rate or bit rate according to said current average level and said previous average level in accordance with one of the relationships:
i) when an absolute value of said current average level minus a target level is less than the absolute value of said previous average level minus said target level, then set a bit rate change value equal to a predetermined minimum bit rate change value;

Art Unit: 2663

- ii) when said current average level is greater than said target level which is, in turn, greater than a previous FIFO level, then reverse a bit rate change direction and set said bit rate change value equal to said predetermined minimum bit rate change value;
- iii) when said current average level is less than said target level which is, in turn, less than said previous average level, then reverse said bit rate change direction and set said bit rate change value equal to said predetermined minimum bit rate change value; and
- iv) when an absolute value of said average current level minus said target level is greater than an absolute value of said previous average level minus said target level, then double said bit rate change value;
whereby said FIFO memory level is driven towards "said target level" as recited in the independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
